The meeting was called to order at \$ 'clock by D. C. Richardson, superintendent

On motion, it was resolved that the nine persons receiving the highest number of ent, who explained its object and expressed votes be declared elected to the Convention, the hope that harmony and good order and the three next highest be selected as alternates. It was further resolved that the voting be by ballot; that the three registrars be appointed as poll-keepers; and that five persons from the audience be appointed as tellers. The Chair appointed the following: Messrs. J. A. Tyree, Joseph Tyler, James Gibbs, and Charles Y. Morris.

A question was asked of the Chair by one of the gentlemen present whether a ticket containing less than nine names, or more than nine names, would be a proper vote. The Chair decided that all ballots containing more or less than nine names should be thrown out.

RICHMOND, 14th May, 1874. Genilemen,-A few of our depositors having threatened to resort to the courts for the collection of the amounts due them, and we having from the date of our suspension placed each depositor on the same footing and paid to each their pro rata share, and being fully determined to treat all alike, we found Mr. Moses had made a mistake of answer to their names the Convention will have deemed it our duty to call you together in order that by united action the interests of all may be protected and prometed, and we relieved of entreaties, demands, or threats that meet and hamper us at every turn, and which, if yielded to by us, would operate prejudicially to your interests.

On the 1st of September our indebtedness was in round numbers \$480,500. Our available funds, amounting to \$91,500, were exhausted in the vain effort to meet the run

that was made on us. On the moment of suspension we ad-dressed ourselves to the work of gathering in our means with which to pay. To facilitate that end, and also to preserve the business which bad been built up through many years of hard labor, we speedily found friends-a large majority of whom are not creditors-to take up the stock of the "Bank of Commerce," to which we are small subscribers and of which we were made the officers.

The first, second, and third dividends of

ten per cent. we paid on the 1st day of Norember, December, and January respectively, although judicious business friends advised against them, and urged dividends of five per cent. instead; yet we felt it our duty to pay as fast as realized. At the end of that period (say February) we found ourselves without the ready means to pay farther; but under the advice of friends our income was anticipated to an amount sufficient to cover a dividend of five per cent. for February-the result has been that the amount thus distributed has just been realized. We have paid in dividends about \$140,000, you will perceive, since the 1st of September; we have reduced our indebted ness in the round sum of \$231,480, leaving a balance now due of \$249,141.13 as per memoranda herewith submitted. This remoney for a large portion of the assets, except at such sacrifice as would be ruinous to ourselves and very damaging to you. practical question now is, whether it is best the most of them? We have felt unwilling A nolle prosequi was entered in the case of to make any suggestion, or submit any plan, good judgment; but it has been urged, with much seeming plausibility, that your deliberations may be facilitated to a conclusion by ry, and sentenced to the penitentiary for five our doing so. With that end in view our minds lead us to this suggestion: that you agree to take paid-up certificates of stock in the Bank of Commerce for your entire respective indebtedness. To protect the bank we will transfer all our assets. You will thus get all we have, and, in addition, the very well established business which the bank has and will inherit from us, together with our services for this year, and longer if desired; and the Board of Directors representing your interests would be practically your trustees. In time, and with proper management, the bank will realize an equivalent. In placing at your disposal all our resources, we are at the same time anxious to receive suggestions from you, and will carry out in good faith any conclusions at which you may arrive. We would respectfully submit, however, that whatever plan is adopted, it cannot be effective without unanimous concurrence, and forasmuch as we propose to sur-

1. It may be lawfully done. 2. It has the assent of the stockholders of the Bank of Commerce, representing threefourths of the capital stock of said bank, which assent is confirmed by formal resolution of the Board of Directors. 3. In order that the arrangement may in

no manner be bindered, said stockholders and directory are willing to retire. 4. The estate closed up by bankruptcy or other expeditious method would sustain a heavy loss. The cost price of the assets shown is \$297,554.99. And if it should be found, after a reasonable time, that the new arrangement is not profitable, and gives no promise in that direction, the bank can te put in liquidation and wound up by its directory, chosen by the stockholders.

To provide for contingencies, the following resolution is recommended for adoption: Taylor & Williams a large majority of their creditors assembled at Virginia Hall at 10 tion be adopted by the meeting of creditors. nincty days be allowed Isaacs, Taylor & Williams to secure the approval of all the He wants everybody to go to SCHAAP's, 1402 Main. [Signed] JAMES M. MOODY, Chairman. John A. Sloan, Secretary. Nineteen for, one against-W. F. Jackson dissenting.

The question was put on the adoption of this report when Mr. W. F. Jackson moved as a substitute the following resolution :

Resolved, That this committee recommend to the creditors that your committee shall select five trustees to take charge of the assets of Isaacs, Taylor & Williams, which THRES. which said five trustees shall give bond and security for the said assets; and they shall sell the said a sets whenever a majority of your said committee of twenty-one shall recommend the sale of the same, and the money realized from the sale of said assets shall be divided among the creditors pro rata.

The motion was lost by a large majority. The question was then put upon the adoption of the report. It was carried with but one dissenting voice.

Mr. Isaacs then came forward to express, in behalf of himself and his partners, the gratification he felt at the confidence their creditors still showed in them, as evidenced by the unanimity of the vote adopting the proposition they submitted. Their creditors number something like a thousand, and cover in large part a class of our community who can ill afford to be deprived, even for a limited time, of the use of their money. Mr. Isaacs, after speaking of the good-will gene rally shown them by their creditors, dwelt with feeling upon the peculiar courtesy and kindness exhibited towards them by the stone cutters, a large number of whom were depositors, and whose needs have been sore for the past six months, they being without

employment. We cannot but wish this old and worth house a safe issue out of all their troubles, and it is our belief that the proposition, carried out in good faith on both sides (and of this we have no doubt), will result in the payment to their creditors of every dollar due them, and save to the firm the fruits of wenty years of unremitting labor in their GRUBES & WILLIAMS, 6 P.
